I am posting this review as a warning to potential buyers - this game is broken. Level 57 will not complete. You can see other users complaining of the same in the discussion thread.. I am posting this review as a warning to potential buyers - this game is broken. Level 57 will not complete. You can see other users complaining of the same in the discussion thread.. At the time of writing this review there are achievements in the game but not in Steam. It works as the other mosaic games do with no major difference in the mechanics. Some of the mosaics are horrible looking and some are nice which is par for the course. However at this time two levels do not complete and that means you can't finish the levels in those worlds. In the third world level 57 won't complete which blocks 3 levels. In the 6th and final world level 103 won't complete and that blocks 17 levels. So a total of 20 levels can't be played. I'm not asking for a refund b/c I only paid .49USD and it's not worth the trouble. Because of the broken levels I can't recommend the game unless you are paying a very low price and don't mind not being able to get all the achievements..
