Nice puzzle game, but I wish it would tell me what the perfect puzzle move goal is.. u2b50u2b50u2b50u2b50u2b50. A nice, original puzzler, where you can both rotate the board and rotate the tiles. (See the store video if that doesn't make sense) The difficulty ramps up nicely over the course of the game, with a decent number of new features added to keep things varied. Interestingly, the move count is only based off rotating the board - rotating individual tiles is 'free' for scoring purposes. (This has the slightly odd property that some levels can be completed in "0 moves") Overall, it's very nicely put together (graphics, sound, music all fit nicely). Recommended.. A neat little puzzle game that.. A neat little puzzle game that.
